ZINC PAINTS,

WARRANTED PURE.

The New Jersey Zinc Co.,

WAREHOUSE 45 DEY STREET,

NEW YORK,

ARE prepared to supply their Zinc Paints at the following prices:

No. 1 White ground in oil, 9c per lb.
No. 2 White, ground in oil, 8c per lb.
No. 3 White, ground in oil, 7c per lb.
Brown and Black, ground in oil 6c per lb.
Dry White of Zinc, 6c per lb.

WHITE ZINC PAINT.

After through test in Europe and the United States, it has been found to retain its beauty and protective qualities longer than any other paint— For whiteness and body now it is unrivalled; it is free from all poisonous properties so common and dangerous in other pigments; will cover equal weight, from 40 to 100 per cent more space than lead, and is therefore much cheaper in the con- sumer. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of rooms. Their White Zinc ground in varnish produces the porcelain finish.— Their

Brown and Black Zinc Paints

in a few hours form a hard and solid metallic coat- ing upon wood, brick, iron and other coating sur- faces, and are remarkable for their fire-proof pro- perties. They are specially adapted for marine purposes, having been found to resist the corrosi- ng action of salt water, so destructive to other paints.

Dealers supplied on liberal terms by

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DI- GESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chem- ist, 7, Prescot Street, Liverpool, dated 8th June, 1851.

To Professor Holloway.

Sir,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digest- ion. On the last occasion, however, the virulence of the attack was so alarming, and the inflamma- tion so extensive, that doubts were entertained of her not being able to bear up under it; for- tunately she was induced to try your Pills, and she informs me that after the first, and each succeed- ing dose, she had great relief. She continued to take them, and although she used only three box- es she is now in the enjoyment of perfect health. I could have sent you many more cases, but I do so above from the severity of the attack, and the speedy cure. I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEU- MATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter received by the Hobart Town Courier, of the 1st March, 1851, by Major J. Welch.—

Margaret M'Cann, van, nineteen years of age, re- siding at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs during this period she was under the care of a celebrated eminent medical man in Hobart Town, and by them her case was considered hopeless.—

A friend prevailed upon her to try Holloway's Pill- obtained Pills, which she consented to do, and in an incredibly short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 61 YEARS OF AGE.

From Messrs. Thow & Son, Proprietors of the Lynn Ad- vertiser, who can vouch for the following statement— August 3d, 1851.

To Professor Holloway,

Sir,—I desire to offer my testimony to the good ef- fects of Holloway's Pills. For some years I suf- fered severely from a pain and tightness in the stomach, which was accompanied by a short- ness of breath, that frequently prevented me from walking a- bout. I am 61 years of age, and notwithstanding my advanced age, I have received from the use of these Pills have so completely relieved me that I am now free from the complaints which others should be made acquainted with. I can conscientiously re- commend them to others, feeling assured that they will prove a blessing, if taken according to the directions.

(Signed) HENRY COE.

Lynn, Norfolk.

These celebrated Pills are wonderfully efficacious in the following Complaints:

Ague, Asthma, Bilious Complaints, Blotches on the Skin, Bowel Complaints, Colics, Consumption of the Bowels, Constipation, Debility, Dropsy, Dysentery, Erysipelas, Female Irregulari- ties, Fevers of all sorts, Gout, Head-ache, Indigestion, Inflammation, Jaundice, Liver Complaints, Lumbago, Dimness of Sight, Piles, Rheumatism, Retention of Urine, Scrofula, or King's Evil, Sore Throats, Stone and Gravel, Secondary Symptoms, Tic Douloureux, Tumours, Ulcers, Venereal Affections, Worms of all kinds, Weakness, from whatever cause, &c. &c.

Greenleaf's Primary Arith- metic.

MENTAL ARITHMETIC, upon the Inductive Plan; designed for Primary and Inter- mediate Schools. By BENJAMIN GREENLEAF, A. M., author of the "National Arithmetic," etc.— Revised and enlarged edition, 144 pp.

To render this work more complete for the class of pupils for whom it is intended, the author has, at the urgent solicitation of Teachers, considera- bly enlarged and improved it, and has appended a concise and easy system of *Written Arithmetic* for exercises for the slate which the publishers trust will make it still more useful and acceptable to the public. In its present form, it is a suitable introduction not only to the next book of the series, the *Common School Arithmetic*, but to any of the various treatises on written Arithmetic. The Work is handsomely and thoroughly executed, and is sold at wholesale rates.

☞ This popular work (intended to supersede the edition heretofore in use) is now used in the Public Schools in Boston, Cambridge, Salem, Lyn, Newburyport, New Bedford, Providence, and in many other cities in various parts of the United States.

Specimen copies furnished gratis to Teachers and School Directors, who are invited to examine the work.

Lesage's Specific,

A NEVER *failing remedy for thoroughly eradi- cating disorders of the Urinary Organs*, such as Gonnorrhœa, Gleets, Whites, Strictures, Stone in the Bladder, &c., and needs but to be once used to be universally esteemed. The proprietor would respectfully caution those troubled with the above annoying complaints, to beware of those quacks every- where, who unprincipled and unskilled in the art, although knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is only intended for the cure of Private Diseases, and the thousands that have sent their unsolicited certificates vouch for its efficacy, while the better it is known the greater is the demand for it. How different from the various quack med- icines which, when the unhappy patient has once used, no inducement can ever make try again. Lesage's Specific has been the remedy depended on by every class; the senator, the lawyer, the mechanic, the seaman and the dashing cavalier have all tried it and found it truly the good Samar- itan in the hour of trouble.

Dr. Darby answers extracts from some of his certificates.

LIFE OF GENERAL SCOTT.

(Continued.)

—INCIDENTS OF THE BATTLE OF CHIPPEWA.

The following authentic anecdote is told of the charge at Chippewa. When the British line had approached within about 100 yards of ours, an order was given by the British com- mander to "charge bayonet," accompanied by the aggravating remark, "the Yankees cannot stand cold iron." General Scott heard the re- mark, and rushing at once to the front centre of his brigade, exclaimed, "Soldiers! do you hear that? Show them that you are true Yankees. Shoulder arms—wait for the word! And when the enemy had approached within thirty paces, he gave the order in a loud, and distinct voice, "Ready—fire! Charge bayon- ets!"

OUR ADOPTED CITIZENS.—LETTER FROM GENERAL SCOTT.

Washington, May 20, 1849.

Dear Sir—In reply to your kind letter of the 8th instant, I take pleasure in saying that I gratefully reserved for the too partial estimate you place on my public services, and do me no more than justice in assuming that I entertain "kind and liberal views toward our naturalized citizens."

Certainly, it would be impossible for me to re- commend or support any measure intended to exclude them from that full participation in all civil and political rights now secured to them by our republican laws and institutions.

It is true, that in a season of unusual excite- ment, some years ago, when both parties com- plained of fraudulent practices in the naturali- zation of foreigners, and when there seemed to be danger that native and adopted citizens would be permanently arrayed against each other, in hostile factions, I was inclined to concur in the opinion, then avowed by many leading states- men, that some modification of the naturalization laws might be necessary in order to prevent abuses, allay strife, and restore harmony be- tween the different classes of our people. But later experience and reflection have entirely removed the impression, and dissipated my ap- prehensions.

Injury to an immense majority of the most large portion of the men, under my command were your countrymen, (Irish) Germans, &c., who- ssed with admiration their zeal, fidelity, and valor in maintaining our flag in the face of every danger. Vying with each other, and our native born soldiers in the noble rank, in patriotism, constancy, and blood during. I was happy to call them brothers in the field, as I shall always be to salute them as countrymen at home.

I remain, dear sir, with great esteem, yours truly,

WINFIELD SCOTT.

Wm. E. Robinson, Esq.

WASHINGTON, March 31, 1852.

Gentlemen—I have received your note invit- ing me to join you, at Philadelphia, in the cele- bration of the approaching St. Patrick's day—an honor which, I regret, the press of business obliges me to decline.

You do me but justice in supposing me to feel a lively interest in Ireland and her sons. Perhaps no other, except only an American, owes so much to the valor and blood of Irishmen as myself. Many of them, marshalled and fought under my command in the war of 1812-15, and many more thousands—in the recent war with Mexico, not one of whom was ever known to turn his back upon the enemy or a friend.

I salute you, gentlemen, with my cordial respects,

(Signed) WINFIELD SCOTT.

HONORABLE TESTIMONIALS.

That eminent divine and philanthropist Dr. Channing, speaks as follows in the preface to his Lecture on War, delivered in 1838:—

"Much, also is due to the beneficent influ- ence of General Scott. To this distinguished man belongs the rare honor of uniting with military energy and daring, the spirit of a phil- anthropist. His exploits in the field, which placed him in the first rank of soldiers, have been obscured by the purer and more lasting glory of a pacificator, and a friend of mankind. In the whole history of the intercourse of civ- ilized communities, we doubt whether a brighter page can be found than that which records his agency in the removal of the Cherokees.— As far as the wrongs done to this race can be atoned for, General Scott has made the expia- tion. In his recent mission to the disturbed borders of our country he has succeeded, not so much by policy as by the nobleness and gen- erosity of his character, by moral influence, by the earnest conviction with which he has im- pressed, on all with whom he had to do, the ob- ligation of pat

Aroostook Whig Senatorial & County Convention.

THE Whigs of Aroostook are notified that their Senatorial and County Convention will be held at Cutler Hall on MONDAY August 4 at 12 o'clock P M for the purpose of making their nominations and transacting such other business as may come before them

By order

July 21 1862. 3w22

☞ The system of holding representative conventions of the political parties for the purpose of making nominations of officers to be supported by the party is a necessary part and parcel of the political institutions of our country And while there are some who complain of such conventions as it seems quite clear that instead of being dispensed with or the number lessened they should rather be increased as the fairest and best way in which the people can express their preferences not only for candidates for popular election but also those for executive appointment. Indeed (and we may as well drop the thought here as any) the number of officers for executive appointments could be greatly diminished and those of Judges Sheriffs, Collectors of Customs Marshals, Post Masters, and others should be of the people if they would come to the true democracy and wise and safe maxim in practice when the ruling party should have held the reins of power a quarter of the time they have been held by the opponents, who preach democracy but generally practice quite another thing—who talk of progress but take slow and feeble and hesitating steps in that direction

A necessary condition of popular party conventions is that of all who are represented in it abiding by its decisions as the absolute law in the matter from which the minority have no fair right of exemption The application of this rule to the Bangor Convention binds every whig to cordially support the nominations there made, whatever other personal preferences may have been entertained No man has the right to say that those nominations were the result of delusion or of unfairness or corruption or fraud certain if not until he is able to prove the matter Now no man, not even the most disappointed has been able to prove anything like unfairness or fraud No man has the paper, not even the Boston Courier has succeeded in this and if it could have been done it would not have been omitted No man can do it for probably nominations were never made upon more fair and equitable principles and which more thoroughly and completely reflected the popular wish of the convention as a whole The whole coast was made clear and plain so that every member of the convention knew exactly where he stood. The various ballots gave opportunity for every member to express his first choice and his second choice and the result shows that while Gen Scott was the first choice of a large number, he was the second choice of many others This ought to be fully satisfactory to the other distinguished candidates before the convention and to their friends, and this conclusion they are approaching and before long no other opinion will be entertained

Fire.

A fire broke out on Saturday afternoon in the stable of Daniel Bradley, Esq., on Adams st. The stable was consumed and the two story L portion was badly burnt, but the large main house was saved though mostly cleared of the furniture, carpets, &c. The property was insured at the Penobscot Mutual office Loss about $500 The Fire Department deserves great credit for their efficient services in subduing the fire.

☞ The weather continues very dry and warm

THE FISHERIES. To show the value of our property in the fisheries on the North Eastern coast, it may be stated that the cod fishery of New England employs one thousand vessels, with an aggregate of seventy seven thousand tons, which are navigated by 14,580 men. The value of the vessels and outfits, is stated at $6,923 260. One half of the limb of their voyage is annually spent in the waters from which the British Ministry now propose to exclude them Most of these vessels are already on the ground, having been going home three to four months. The mackerel fishery employs 868 vessels, with an aggregate of over fifty four thousand tons, which are navigated by 9,174 men and boys—The value of the vessels and outfits is $3,692,000 The number of barrels of mackerel taken last year is stated at 322,242, of which 119,000 were taken in the waters to which Great Britain now claims the exclusive right.

☞ General Quitman of Mississippi, whom General Scott upon his triumphant entry into Mexican capital, appointed military governor of that city, died a few days since—The American people have never done General Scott justice The more that man's character and claims to distinction are canvassed, the higher will be the stand he will take in the admiration and gratitude of his countrymen I am a democrat, and consequently, differing widely as I do from General Scott on every political question, can never give him my support; but if there is a Whig in the Union for whom, under any circumstances, I could cast my vote for President that Whig is Winfield Scott."

☞ On Thursday night last the Unitarian Church, Rev Mr Pack, on Winter Hill, Somerville, was totally destroyed by fire together with a valuable organ Some of the Church furniture was got out The church has been but a about five years and was valued at $10 000, and was insured for $7000, part at the Mechanics' Mutual in Boston and a part in Lowell. The organ was valued at $1000, and was insured in Charlestown. The fire was no doubt the work of an incendiary

☞ The Boston Traveller states that on Thursday night while the schooner Falcon of Stonington, Maine was hauling through the bridges on Charles river, some fellow or fellows, entered the cabin broke open the Captain's trunk and stole a wallet containing $185 and from the mate's chest a wallet containing $2

☞ An agricultural work, recently published gives among the examples of the benefits of cleanliness A pig washed weekly with soap and water, applied with a brush, will be found to thrive and increase in weight compared with a pig not so treated, in the ratio of five to three

☞ Bolton Young of Reedsburg, Wisconsin, offers his horse and farm, all his property, for the recovery of his child, two years old which was probably stolen by tramps, while its mother was washing at a

☞ Efforts are being made to secure a room for the Central Congregational Church to enable the Pastor to add a

☞ The Dover Observer says several valuable horses have recently been stolen from Strafford county, but all have been traced so far as known, but few have been recovered.

☞ Uncle Tom's Cabin is the course of publication in England in different editions. One of them is to be fully illustrated.

☞ Cherries have been abundant in our market for the week past.

☞ The Atlantic and St. Lawrence railroad is now completed as far as Northumberland Portland.

It was from this office that was printed at Cruces, on the night of July 12 and Governor Purdy, Major Sibley, Mr. Shaw Hon. M. F. Soule, and Hon. D. ney, crossed the Isthmus in company They had with them baggage on board which was duly received at Cruces, and stored in one of the Mansion houses The house was entered during the night, all the baggage taken out to an open lot and there broken open and rifled of the entire contents even to letters, securities &c Gov Purdy and Major Sibley had a quantity of specie mixed of gold, silver and copper, which were taken with the rest

FROM THE MINES. The water in the Merced and San Joaquin rivers is now too high to permit successful mining, while in the Mariposa, Chowchilla and Fresno rivers the miners are all doing well, as they are also on Maxwell's creek Sherlock's Whitlock's and Saxtons, and at Marble Springs Spangle Gold Gulches. There is not much doing in the quartz ledges An English company have leased the Mount Ophyr mine, and will shortly erect new and extensive machinery upon it and prosecute the work with vigor—Some members of an English company, to whom Col. Fremont sold an interest in this quartz vein in Mariposa, are not a little chop-fallen at their future prospects. There are two companies now at work, engaged in bringing the water from the Stanislaus to be distributed over the entire country lying between the Calaveras and Stanislaus—The work will be completed in September. The miners at Carson's Creek, Angel's and San Andreas who have water to work their toms, are said to be averaging about $12 per day.—San Joaquin Republican

It is estimated that there are between fifty and seventy five thousand acres of agricultural lands in San Joaquin county

Horses are lower in prices at Marysville than in Stockton, in anticipation of a large supply over the mountains Working oxen are worth about $200 per yoke Beef cattle are 12½ cents per pound on foot, by the drove Sheep $16 per head, and stored those are also high and in demand.

THE MORMONS IN CARSON VALLEY. Several large trains of Mormons, from Salt Lake had reached Carson Valley, one from quite recently, with about one hundred head of remarkably fine loose cattle In fact they are all well supplied with stock They have with them their families and express themselves exceedingly dissatisfied with the state of things existing in Deseret. Many of them experienced great difficulty in getting away, being harrassed by vexatious and unfounded suits, and their cattle seized Hundreds have in this way been prevented from leaving, who otherwise would. Brigham Young has left Salt Lake, with a hundred men, in search of a new settlement for the Mormons. Such is his avowed object, but his real aim is to be out of the way when the inter Government comes. All of them speak of in the harshest terms of him" He is said to have taken with him two or three hundred thousand dollars Those in Carson Valley had renounced their religion, and determined to settle permanently in California.—Sacramento Journal.

CONGRESS.

WASHINGTON July 22

In the Senate. A number of petitions were presented Mr Gwin offered a resolution calling for an estimate of the expense attending the survey of the coast of California and the adjacent islands. Adopted

A bill allowing exchanges of, and granting additional school lands in the several States which contain public lands, and for other purposes, was taken up. The bill grants an additional section in each township to the States for school purposes.

Mr Dawson called attention to this new proposition to give away the public lands. He claimed for old States an equal share in the public lands, and hoped that when the House bill which gives the old States a portion of those old lands comes up, that the representatives of new States would not object to it.

Mr Borland replied.

The bill was then ordered to be engrossed

On the motion of Mr Fetch the Senate took up the bill granting Michigan land for constructing a ship canal around the falls of Saut Marie. Mr Fetch offered a substitute for the bill granting the grant of public land, providing in place thereof that the Secretary of War be directed to let with the lowest bidder for the construction of a ship canal 100 feet wide 12 feet deep, and locks 325 feet long, 75 wide, cost not exceeding $100,000

Mr Cass pointed out the necessity of the work with respect to commercial and military interests of the country, commenting at length upon the rapid increase and importance of the iron and copper interests in the Lake Superior country—all products of that country have to pass through this canal, or through one to be constructed by the British It had been found important to the military marine of the Lakes, that the connection between the Lakes should be established During the Oregon difficulties President Polk contemplated proposing the construction of this work, but there being a prospect of an amicable arrangement of that difficulty it was deferred.

Mr Dawson asked if any estimate had ever been made of this work.

Mr Fetch said two surveys and estimates had been made, one by the United States and the other by Michigan.

Mr Dawson said he supposed this was one of those works of internal improvement. He desired the Senate should postpone it.

Mr Pratt was in favor of this bill, and said it was one of the national works of internal improvement. There was, moreover, a pressing urgency of passing it now, because there might possibly be one at the head of the Government within a short time who would not give his assent to such a bill.

Mr Smith addressed the Senate in support of the bill and read many statistics showing the inexhaustible extent of the iron, copper and silver of the Lake Superior region

The subject was then postponed, and after a short executive session the Senate adjourned

In the Senate. The bill granting to all citizens of Plank and Railroad Companies the right of way through the Public Lands, was taken up, read a third time and passed

On Motion of Mr Rantoul it was

Resolved That the President of the United States be requested to communicate to this House so far as in his opinion it may be consistent with the public interest all information in his possession relative to the right of cruising vessels of the United States to take fish within three miles of the coast of British North America, according to the uniform practice, under the convention of 1818, and to what extent such vessels or cruisers despatched by the British government or by the said Provinces for the purpose of interrupting the said fisheries, and also what measures have been taken by the United States authorities to protect the rights of the fisheries

The House refused to lay on the table the bill granting lands to Illinois and Indiana for railroad purposes Yeas 61 nays 78

Mr Doty introduced an amendment, giving lands to all the States for like objects pending which the morning hour expired

The first duration of the bill to repeal the drawback system, and provide for the collection of duties prematurely Congress, was postponed until Thursday next

Mr Stanton of Kentucky, from the Committee on Printing reported a joint resolution providing for the settlement of the accounts of Thomas Ritchie, assignee of Wm M. Bell, for printing for the 31st Congress It gives Ritchie one half the prices of 1819 in lieu of the contract price Mr Stanton in reply to a question by Mr Stebbins said it would take out of the treasury $60,000.

Mr Stanton rose to read a question that the Committee had no right to report on that private claim, according to their duties as defined by the rules

The Speaker decided against him, and the House by a vote of 81 against 64, laid Mr Stanley's appeal from the decision on the table

After further proceedings Mr Stanton moved to postpone further consideration of the subject for three weeks

Mr Stevens of Pennsylvania, moved a postponement until the 3d of March, next—disagreed to The subject was postponed three weeks

On motion of Mr McLanahan, the House took up and passed the Senate's bill supplementary to an act providing for taking the 7th and subsequent census, and to fix the number of members of the House of Representatives, and providing for their due apportionment among the several States, approved May 23d, 1850

A resolution was adopted terminating the debate on the River and Harbor bill to-morrow at 2 o'clock. The House went into committee on the bill

Mr Marshall of Kentucky, briefly argued in favor of the unconstitutionality of such appropriations but this bill did not go far enough for him and did not protect in manner and substance the great interests of the West. He addressed himself to this point until the expiration of his hour complaining that much the larger part of the appropriations are for the Lake and Atlantic coasts

The committee at 3 o'clock took a recess till 6 o'clock

The House re assembled at 6 o'clock, and after a session of three hours spent in debate on the River and Harbor bill, adjourned, thirty members only, being present

☞ We give our hearty thanks to Carr's Express for papers received on Saturday, in advance of the mail

☞ A large Meeting House for the use of the Methodist denomination in Franklin, was raised last week

☞ A promising and interesting child, granddaughter of Mr Eldridge Tenny, of Pearsons Mills, came to its death yesterday in a shocking manner It was asleep on a bed and being left by the family, slid down between the foot board and the bedclothes were catching in the mouth it was strangled.—Newburyport Union.

Bangor, Me., July 22, 1862.

A dispatch received here this morning states that the woods are now afire within three miles west of this place for the last few days Hundreds of acres of land continually burned as Pine Plains have already been burned over

This fire is fast extending and is still on the increase, and nothing but a heavy rain could possibly quench the flames, it would not come soon the damage will be immense. In addition to the pine timber, several hundred cords of wood and bark, prepared for market purposes, have been burned

From Havana.

NEW YORK, July 23, 1862.

A correspondent writes that a conspiracy has been discovered in Havana for the overthrow of the Mexican government in favor of Queen Isabella.

It is stated that Christidina, the Queen mother, is at the head of the movement. The whole affair was nipped in the bud by Gen Arista, who seized the papers of the conspirators and threw the leaders into the prison of Vera Cruz.

DIED.

In Foxcroft, 19th inst, Mr George W. Bragg, son of Mr Nehemiah Bragg, aged 31 years. Mr Bragg had just returned from California, having been absent about three years.

In Kilmarnock, July 15th, Mrs. Mehitable W, wife of Robert T. Grant, aged 65 years and 4 mos.

By the truly afflicting dispensation of Providence, the husband, children and relatives of the deceased, are plunged into the deepest affliction. Possessing in life many excellent traits of character she was endeared to a large circle of friends, and particularly to those who were most intimately associated with her. The memory of her virtues and unassuming worth will be long and tenderly cherished. After a long and distressing sickness, which she bore with much patience, her spirit quietly passed away, and we trust now rejoices and reposes with Him who is the resurrection and the life. She leaves a husband and seven children to mourn the loss of an affectionate wife and kind parent; but their bereavement is not to be lamented as one without hope, for their departed mother has entered by a bright mansion

The relatives and friends who assemble at the late residence of the deceased, on Wednesday next, at 1 o'clock P M, to attend the funeral services, are invited to consider this the last day notice.

COAST SURVEY STATION NEAR PETERSBURG, Va.
June 25, 1862.

SIR I have the honor to report the following notice to mariners, and to request authority to publish it I would respectfully recommend it will be to the charity of the Department, that the temporary buoy marking the rock in Hooper's Straits should be replaced by a regular spar-buoy

NOTICE TO MARINERS On the northern side of the entrance to Hooper's Straits (in the eastern side of Cheapeake bay) is the sunken wreck of a schooner laden with coal This wreck lies a little over one mile south half west (by compass) from Richland Point, and forms a dangerous obstruction, lying directly in the tracks of vessels bound in or out of the Patapsco river It has round with 16 or 17 feet water like spar, and only 4 to 5 feet on it A temporary buoy has been placed on it by the Coast Survey, but would not wreck as also the official water for the westward of Hooper's Island, vessels bound into the straits from the north should not approach Hooper's Island nearer than two and one half miles, until the light-boat in Hooper's Straits bears (by compass) east half north to range with Bishop's Head

Very respectfully yours

A D BACHE, Superintendent.

Hon W L Hunt Acting Secretary of the Treasury

Bigelow's Alterative.

A CERTAIN cure for DYSENTERY DIARRHŒA, CHOLERA MORBUS and all Summer Complaints GEORGE W BELCHER Proprietor 98 Broadway, New York

For children who are Teething and Cholera Infantum this medicine stands unrivalled It may be used with perfect safety both by old and young, and when faithfully administered it has never been known in any case to fail of a speedy cure Unlike other medicines it corrects the bowels and often a few hours the patient is restored to his accustomed vigor and health

We append the following testimonials

I have used Bigelow's Alterative in my family, and have never found it to fail, when all other remedies administered by and under direction of Physicians have proved ineffectual I think it a perfect corrective for Dysentery and all Bowel complaints GEO W HERBERT, 47 Wall st

New York March 22d, 1862

We can add our testimony to that of others of its great efficacy in our own cases, when prostrated to an alarming degree by bowel disease, It was the only medicine that gave relief and one now always kept in the family.

Editor of the N Y Baptist Register

Utica, April 15th 1862

Bigelow's Alterative advertised in another column of our paper is probably the best cure for Dysentery Diarrhœa &c, &c that has ever yet appeared We hold to make a point of extolling patent medicines, and for the very good reason that most of them are entirely undeserving of praise; but we have it in our wish substantiate and respectability that the above "Alterative" is all and more than all it professes to be that we cannot do less than make mention of it in this way to our readers All that we ask of the great incredulous in such matters is, to read the *certificates* cited in the advertisement and then judging from the high standing of the parties (who are all to be readily promptly and *publicly* to certify) candidly to say what are the results or otherwise We have more to say of this remarkable preparation by

The following certificate from Dr J Mason Warren of Boston, was given 16 years ago the day last forever

Boston, June 27, 1846

Having had occasion to observe the construction of the various kinds of trusses offered to the public for the relief of Hernia, for the last twenty years, I have no hesitation in recommending those of Mr Foster, as being the most perfect in the mechanical principle on which they are constructed, and the most judicious in the adaptation of the various parts to the different forms of the body

J MASON WARREN M D

CERTIFICATE The following certificate from Professor Stuart, of Andover Theological Seminary

The undersigned having occasion to employ Mr Frederick Foster of Boston to make for the relief of Hernia, a pair of trusses, is very willing to bear testimony to the perfection of such persons as may be afflicted with that and similar complaints, that he has attained in the manufacture and adaptation of them to the various purposes, and to the wearer's ease and convenience, which he professes to aim at in the construction of the article

The subscriber's testimony to which I have derived together with the recommendations of Dr J C Warren and others, is his guaranty for all who may favor Mr F with their orders, and will entitle him to the confidence and liberal patronage of the community

Bangor Air-Tight COOKING STOVE

THE best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of the very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers, Messrs. Easter & Whittier, who know, and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout and smooth castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded after 30 days trial.

—Also—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden 3 and 4 Boiler and two Oven—Boston two oven Stoves, Forrest-Queen, &c.—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot, No 15, 17, and 19.

CARRIAGES!

Patronise Home Manufactures.

WE are manufacturing Light Carriages of every description, which we are prepared to warrant equal to any in the market, whether for style or durability. We have purchased the right to use a patent attachment, for Four Wheeled Carriages, whereby Carriages can be made different in a very small compass, describing a circle of 9 feet, thus avoiding the grating noise, considered alarming (which is desirable), as the wheels do not come in contact with the body. We wish it understood that we hold ourselves responsible for the failure of our work in consequence of the use of poor stock or work.

We also manufacture Elliptic and Side Springs of a superior quality.

Jobbing in every branch promptly attended to at fair prices.

25,000 Sold per Year!

The Unsurpassed, and Unsurpassable

Bay State Stove,

OF SIX SIZES, of heavy and smooth castings—prime iron; $15 to $30—celebrated for its whole cooking apparatus, carrying off the smoke in broiling, and not to be exceeded in baking, frying, boiling, &c., &c., as to durability and economy—may be had, as heretofore, at the well-known and long-established

Stove, Furnace and Range DEPOT,

Nos. 30 & 32 MAIN STREET, and 2 and 4 WALL STREET, OF

N. JOHNSON,

Who is SOLE Agent, and always has been for this market for the sale of the celebrated Stove above named, of which 25,000 were sold the past year, and of which some 30,000 will not be more than sufficient to supply the demand the present year.

The BAY STATE is sold and warranted as usual. Returned after an unsatisfactory trial of 30 days, the price paid will be refunded, together with interest and cost of returning.

Purchasers purchasing the BAY STATE, and desiring repairs, are not subjected to the trouble of sending to Rhode Island or New York for castings, nor to wait in Bangor for them, AS I HAVE THEM ON HAND.

A CHALLENGE OF $50

Is proposed, that 50 Stoves of six sizes, of any other pattern than the BAY STATE, (for which I am sole Agent,) cannot be produced which will compare with the 50th now on hand in thickness and smoothness of Castings, or in facility and capacity of broiling, baking, boiling, or other cooking requisite.

☞ The public are especially requested not to mistake a Stove called the "IMPROVED" BAY STATE, which is a cheaper and inferior article, of thinner and less durable castings, and which is sometimes advertised without the word Improved as a prefix, for the original and genuine BAY STATE, which has been so generally and thoroughly tested and admired.

All other kinds of STOVES constantly on hand, as above, which will be sold at reduced prices.

George Hummell's PREMIUM ESSENCE OF COFFEE.

ONE package of 32 cents will save four pounds of Coffee. Thousands of families—not only of the poorer but also of the most genteel and fashionable—say of the first physicians of the day and all other persons who use it, that Coffee made with this Essence is much wholesomer, more delicate, finer flavored, perfectly clear, and in every instance better than the best Java Coffee.

This Essence was awarded a silver medal by the American Institute of New York, also a premium by the Franklin Institute of Philadelphia, 1851, to which notices the highest premium for such articles is awarded.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 22 State Street, Boston.

IN 1849 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured one week earlier*, the continues to forward the same at expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice in legal and scientific matters respecting the same. Patents acquired in Europe and other countries.

By application at the office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all perplexity and trouble in obtaining their patents. They also have the advantage of *personally explaining* their inventions, and if necessary, in case of rejection, *suggesting amendments* in respect to them, so as to obtain correct specifications and claims. The experience of fifteen years' practice, an extensive collection of rare works, decisions, &c., on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with abstracts here kept of inventions patented at Washington, enable the subscriber to afford to inventors, designs of procuring Patents, assistance and information which in other hands, it might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office—and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

DR. FONTAINE'S BALM OF A THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing and many Medicinal Purposes.

HIGHLY perfumed by the rare ingredients Recommended by the faculty of almost every European city and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New York, Philadelphia and Boston.

It is the greatest luxury a lady or gentleman could wish for, the improvement of health for comfort and personal embellishment, and the delicate odor is an ingenuation, and the delight of infants it imparts to the complexion.

We give a few of the prominent properties of the

Balm of a Thousand Flowers!

safely well established by actual experience.

FIRST.—This Balm remedies every defect of the Complexion.

And establishes in its stead Beauty and Health, as the blood when built by the changes of age or broken of injuries or disease, have been obscured and undespirited—it cleanses the skin and draws to the surface all impurities and every species of pimples and blotches; also removes tan, sunburns, sallowness and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND.—It promotes the Growth and increases of the Hair causing it to Curl in the most natural manner.

It cleanses the head from dandruff, giving vigor health and life to the very roots of the hair.

THIRD.—It is a superior article for Shaving Seing superior to all descriptions of Soaps, Creams, Pastes, &c.

As a DENTIFRICE for *cleansing the Teeth*, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth as white as alabaster. For bathing, for suffering infants and for adults to promote sweetness of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this Balm. It may be used in cold or warm, hard or soft water.

TO PHYSICIANS AND THE AFFLICTED!

I HAVE received this day a new supply of GOLBERGER'S

Galvano-Electric Chains,

which are recommended by all the first Physicians in Europe as the certain remedy for *Gout, Rheumatism and Nervous Complaints*, what our eminent Physicians, Dr. Wm. Wesselhoeft, Dr. C. F. Hoffendahl, Dr. John Bigelow, and Dr. John Eliot, in Boston, Dr. John Vanalnburgh in New York, Dr. McAllister in Baltimore, etc., *have promptly trying them*. More than 1000 testimonials of above, Physicians, which are *confirmed by the government of Berlin*, may be read in the different languages at my Agents. All persons afflicted are respectfully invited to call on my Agents and satisfy themselves personally of the truth of these statements.

I recommend these Chains to all afflicted as there are daily new and extraordinary cures effected by them.

The genuine Galvano-Electric Rheumatism Chains of Goldberger, are to be obtained of the following Agents:

BRANT'S INDIAN PULMONARY BALSAM,

The Great COUGH REMEDY.

Many years of experience, and more than a Hundred Thousand Bottles sold annually, have given to the undersigned satisfactory proof to all persons who have become acquainted with this *wonderful remedy*, that it is a speedy, supporting, sure cure in Consumption of the Lungs, than any other Remedy in the world. We know, from actual trial, it saves by consultive Consumption can not be given. We find that the opinion of the many of the most skilful physicians in this and other countries, who are using it with success, is that we *will say*, and do *assert and feel*, which can be proved in thousands of cases, that the medicine has cured Coughs that have been given over as incurable, were called, real Consumptions, and which were settled, with *symptoms* that resembled, and were to all *reasons* like the symptoms of those who die, and *when done* died of Consumption, or fatal disease Consumption. This Balsam has cured *thousands* of persons who were said to be hopelessly afflicted—who had *hard, dry, shaking Coughs*—*Pain in the Breast, Spitting of Blood, Difficulty of Breathing, Wheezing, Whooping, Influenza, Hectic Fever—Night Sweats*—and what but many of the Plants and Blood. Persons having such complaints have but to call on the Agents and they will be supplied with a sample bottle of this Medicine that will convince any one who wants support to be in a dying state, that by the use of this remedy they now live, and enjoy good health.

This Balsam is purely a vegetable compound. It is pleasant to take, and never does injury in any degree of the case or under any circumstances. It effects the wonderful and *almost miraculous* Cures by Purifying, Strengthening and Invigorating the whole system—*by equalizing the circulation*, and producing a healthy action—*thus allaying Cough—soothing the Nerves—and stilling pain—facilitating Expectoration*. It Cures the following diseases, viz:

Consumption,

COUGHS *Colds, Bronchitis, Asthma, Spitting of Blood, Hoarseness, Sore Throat, Pain in the Breast, Side and Limbs, Night Sweats, Inflammation of the Lungs*, and all FEMALE WEAKNESSES and *Complaints* arising therefrom, Chronic Rheumatism, &c.

☞ For Proof and particulars of Cures, see our Pamphlets and *Handbook*—all our Agents have them to give away.

For sale by WM. MANN, Bangor; Whitney & Gilman, Newburg; P. McCrillis, Dexter; C. Reynolds, Garland; A. Herrick, Carmel; Snow & Baker, Hampden; R. F. Kennell, Oldtown; Berry & York, Dixmont; E. B. Pike, Lincoln; H. Bunker, Orono; H. K. Dexter, Corinth; J. Kirby, Newport.
